

Green the Prairie

DATE: APRIL 5, 2014

TIME: 8:00 A.M.— 12:00 P.M.

Volunteers are needed to plant 2,500 native coastal prairie grasses. This event will continue the restoration of 400 acres of farmland to native prairie habitat and reestablish the diverse wildlife that it once had. Located on the NE edge of Houston, the Sheldon Lake Environmental Learning Center is visited by over 6,000 children and adults each year who take guided nature walks, study ecosystems, go fishing, experience pond ecology, and see alternative energy in action. We invite you to be a part of the ongoing restoration work on the Sheldon Prairie.

A Natural Classroom preparing today's youth for tomorrow's future.
