

Building on our wildly successful showing in January 2016, the Citizens' Environmental Coalition (CEC) is proud to bring *The Wild & Scenic Film Festival on Tour*, one of the largest environmental film festivals in North America, back to Houston for two nights: January 25 & 26, 2017!

The CEC connects individuals and organizations to create a stronger Gulf Coast environmental community. **We invite you** to become a sponsor of *The 2017 W&SFF* at the historic River Oaks Theatre, where up to **450** patrons each night will enjoy films on the latest environmental issues. Sponsorship is an amazing opportunity **to align your organization with our community** and inspire people to take environmental action where they live. You will also support over 130 local environmental groups and raise awareness for **your own green initiatives**.

We have selected films that showcase the link between outdoor adventure and the inspirational beauty of the natural environment. Please visit our website, www.cechouston.org, for more information. To learn more about the festival visit www.wildandscenicfilmfestival.org. Please contact me to get involved.

Sincerely,

Rachel Powers, Executive Director
